## BOTTLE STOPPERS

### SS-6000 (SS-301)

★★★★★ (49 customer reviews)

~~\$6.45~~ \$4.68

\$4.50 per unit for buying at least 12

\$4.25 per unit for buying at least 24

\$3.88 per unit for buying at least 48

These stoppers are top quality, made in the USA.

- Solid FDA 304 18-8 food compliant stainless steel
- FDA food compliant nitrile o-rings
- Lifetime Guarantee on stopper and o-rings
- Made and patented in the USA

These stoppers have a 3/8" x 16 threaded stud 1/2" long, machined in one piece with stopper. Top diameter of this stopper is 13/16" and it is 1 1/2" tall. The picture shows how the stopper sits low in the bottle so you can create designs that will sit low to the bottle. This style is popular for golf balls, pottery, wood and ceramics. This is the first stopper I ever designed in Feb. 2005.

[Bottle Stopper Tags](#): these cards tell people you are using the best quality stoppers. \*click "enable editing" to type your name on the card

\*Note: for larger quantities buy wholesale direct from [Manufacturer](#).
